Measles.—Many cases exist in the province of Belluno.

Enteric fever.—Sporadic cases are present in all the provinces.

Diphtheria.—Cases are reported at Rome, Milan, Catania, and Pedavena (Belluno).

Pellagra.—There are many cases in the province of Perugia.

ITALY—QUARANTINE REGULATIONS.

By an order dated March 22, 1905, the preceding ordinance of January 1, 1905, was repealed, by which plague quarantine regulations were imposed at Italian ports against arrivals from Suez.

NICARAGUA.

Report from Bluefields, fruit port—Inspection of vessel.

Acting Assistant Surgeon Layton reports, April 2, as follows:

I arrived in Bluefields April 1, 1905, and have issued certificate of inspection to steamship *John Wilson* because said vessel was due to sail before my arrival, but was delayed until this morning. I also issued certificates to 2 passengers for the same reason—one a round-trip passenger from New Orleans.

PANAMA.

Reports from Colon—Inspection of vessels—Fumigation of vessels to destroy mosquitoes—Yellow fever in Panama.

Acting Assistant Surgeon Mohr reports, March 27, as follows:

During the week ended March 25, 1905, the following vessels cleared for ports in the United States and were granted bills of health:

Norwegian steamship *Alf* for a port in the United States, via Santiago, Cuba, March 19, with 25 crew and no passengers.

Norwegian steamship *Ellis* for New Orleans, via Limon, March 21, with 33 crew and 2 passengers.

American steamship *Advance* for New York, March 22, with 61 crew and 75 passengers.

American schooner *Asa T. Stowell* for New Orleans, via Frontera, Mexico, March 24, with 9 crew and no passengers.

British steamship *Asian* for New Orleans, via Jamaica and Mexican ports, March 24, with 50 crew and 81 passengers.

Norwegian steamship *Alliance* for a port in the United States, via Baracoa, Cuba, March 24, with 13 crew and no passengers.

The living quarters of the steamships *Alf* and *Alliance*, both bound for Cuban ports, were fumigated for the purpose of killing mosquitoes (4 pounds of sulphur to the 1,000 cubic feet being used for three hours) by the quarantine officer of Colon. The fumigation was done in open harbor and certified to by the quarantine officer and myself.

During the week ended March 27, 1905, 7 deaths were officially reported from the following causes: Dysentery, 1; pneumonia, 1; rheumatism, 1; cerebral fever, 1; neuritis, 1; lumbricoids, 1.

No further cases of yellow fever have occurred in Colon since the case reported on March 22, 1905. A thorough search of the town has
